

PRICES OF STOCK
YARD PRODUCTS**J. Ogden Armour Says That
They Will Decline.****DESCENT WILL BE GRADUAL****Warns the Public From Too Hastily
Accepting the Belief That a Drop
From the Highest to the Lowest
Prices Is Due—Declares That Pack-
ers Welcome Lower Prices.**

Chicago, Nov. 16.—J. Ogden Armour said the whole tendency in the prices of stock yard products was towards a lower schedule. He also said the descent would be gradual and warned the public from too hastily accepting the belief that a drop from the highest to the lowest prices was due.

"The packers' prices to the retailers are based entirely on what we have to pay for the live animals," said Mr. Armour. "Generally speaking, prices are lower and I believe they are working toward a still lower level. The present situation is the result of the enormous corn crop and of previous high prices that stimulated everybody to raise live stock.

"The public is getting the benefit of present conditions and should get further benefit as the increased supply of live stock reaches the market.

"The recent high price of meats and packing house products cannot be attributed in any way to the packers, nor to any combination of persons or firms engaged in the packing house industry. It has been due to conditions that developed from a scarcity and a high price for corn, which is the basis of the supply of live stock.

Welcome Lower Prices.
"Conditions in live stock raising are bigger than any packers or set of packers. The packers welcome lower prices. Our prices are based on what we have to pay for live stock, and the sooner the people and the world at large realize that the better it will be for everybody."

A bumper corn crop and unusually heavy receipts of cattle and pork at the stock yards are given by Chicago dealers as the causes of the general decline of foodstuffs over the country. A decline in prices at the stock yards was followed by a reduction on fresh meats and staples. Commission men here predict lower prices still on everything except eggs, which they say are high and going higher.

The decline since the first of October is from 50 cents to 75 cents on cattle in the bulk, and the market in general is 50 cents lower than it was a week ago. Hogs have dropped from \$9.65 a hundredweight on Oct. 18 to \$7.82½.

Reports from dealers at Montreal indicate that the Canadian market is following that of the United States downward. Barrel pork which has been sold in Canada at \$33 was quoted at \$26.50, and other meats have declined correspondingly.

Beef, pork and poultry are quoted lower by 2 to 4 cents a pound in New Orleans. Seattle quotations indicate a drop in the Puget Sound territory for all meat prices. Butter is higher there. Pork products have become slightly cheaper in San Francisco, but general food prices remain at the figures prevailing for the past few months.

FALLS FROM SEVENTH STORY**Yet North Dakota Man May Survive Injuries.**

Bismarck, N. D., Nov. 16.—Richard Wyldes, a bricklayer's helper employed on a seven-story building here, fell from the roof to the street and, as far as the physicians are able to discover, suffered only a severe shaking up and a deep gash on the right side of his head. The young man is at the hospital now and is conscious.

It appears that Wyldes was employed at taking wheelbarrows from a hoist which ran up the side of the building. He had just put an empty barrow on the hoist when it was started for the bottom and the man apparently lost his balance and pitched forward toward the ground. He grasped the cable with both hands and hung there for an instant, when the engineer below saw his predicament and stopped the engine so suddenly that the cable parted above where Wyldes had hold and elevator and man were dashed to the ground, seven stories below.

He was immediately picked up and taken to the hospital a block away, where it was feared for a time that he had suffered internal injuries. It was later found that he had two ribs broken and a bad cut along the side of his head. Unless complications set in he will recover.

A Spider With a Lasso.

Spiders have a number of ingenious ways of alluring and catching their prey. A writer in Popular Science describes an American spider which haunts evergreen trees and snares its dinner by means of a kind of lasso. The web of the spider is triangular in form. Two corners of the triangle are attached to twigs, but the other corner, which ends in a single thread, is held by the spider, perched on a neighboring twig. When a fly strikes the web the spider loosens his hold and the elastic threads instantly entangle the victim.

ELECTION BILLS ARE LARGE**Heavy Expense Incurred by Vote on Amendments.**

Mitchell, S. D., Nov. 16.—Since the election bills have been filed with county auditors a cry has gone up over the state of the excessive expense incurred by the vote on laws that were referendum and prepared amendments to the constitution. In many counties the printing bills have reached large sums. The referendum laws and the amendments to the state constitution had to be published in three papers of the county four weeks. They made about twenty columns of solid matter.

Aside from that, the printing of the ballots for the laws and amendments entailed a large expense. In Division county the printing and publishing of the laws cost \$1,980, and this is one of the smallest counties in the state.

The counting of the amendment ballots also increased the expense of the election judges, as in many cases the work was not completed until noon the day following election.

The legislature will be besieged to have the laws amended. In some counties an injunction will be filed with the county commissioners to prevent them paying such publication bills. The attorney general, however, has ruled favorably on the charges made by the newspaper men, and the bills cannot be disturbed. That the law will be amended by the legislature is almost beyond question.

SUPERIOR GIRL IS MISSING**Police Trying to Locate Child Who May Have Been Kidnapped.**

Superior, Wis., Nov. 16.—What may develop into a sensational kidnapping case is being worked upon by the police of this city. Lizzie Johnson, aged fourteen, daughter of Mr. and Mrs. J. D. Johnson, has been missing from her home for a week. Despite the efforts of parents, police and friends of the family no trace can be found of the child.

A week ago she was sent to school as usual. That noon she did not return home and at night when it was time for her to be home she did not show up. Immediately a search was started for her, but so far without avail.

The girl is described as being about five feet four inches tall, weighs about 106 pounds and was fourteen years of age. Her complexion was very fair and her hair very light. Her eyes are light blue. When last seen she had on a light blue dress and a dark blue coat.

SCORE OF MINERS PERISH**Hundreds of Others Destitute in Canada.**

Montreal, Nov. 16.—That a score of lives have been lost and that hundreds of miners and prospectors are destitute as a result of continuous heavy rains in the Porcupine mining district was the startling information brought by W. R. McLean, an American mining expert, who arrived here.

He stated that a huge swamp had formed south of Frederick House lake, and cut off miners from supplies. Men were obliged to pack provisions through on their backs, and some perished in the swamp.

Auto Kills Pioneer.

Faribault, Minn., Nov. 16.—Andrew Filler of the firm of Filler & Reed, a pioneer business man of Faribault, died at his home in this city, death resulting from injuries received when he was run down by an automobile a week ago.

GRAIN AND PROVISION PRICES

Sheep—Native, \$2.25@4.20; yearlings, \$4.20@5.25; lambs, \$4.50@6.00.

**COUNT TOLSTOY
IS IMPROVING****Noted Writer, However, Is in a
Weak Condition.****RECEIVES SKILLFUL ATTENTION**

Dr. Makovsky and Another Physician and the Aged Author's Daughter Are Taking Care of Him—Wife Hastens to His Bedside on a Special Train—Countess and Tcherkoff Are Reconciled.

Tula, Russia, Nov. 16.—Count Leo Tolstoy is suffering from bronchitis and, owing to a higher fever, is in an extremely weak condition. A message from his daughter Alexandra, who is nursing him at Astapova, adds that no immediate danger threatens. Tolstoy suffered from a severe attack of bronchitis in the winter of 1909 and as a result was readily susceptible to the disease again when he exposed himself to a long journey in the cold and rain.

The home of the station master at Astapova is quite comfortable and the patient is receiving skillful attention at the hands of Dr. Makovsky and one other physician, in addition to the care of his daughter. Newspaper correspondents, who are gathering around the little flag station, although not aggressive in their attempts to secure the latest details, are hampering the attendants and Alexandra has issued a request that her father be left in peace.

According to the official diagnosis of the physicians Tolstoy is suffering from a catarrhal inflammation of the lower lobe of the left lung. His heart action is good. The maximum temperature during the day was 102, falling at times to 99, which is practically normal; pulse 104, dropping to 90; respiration fair. The physicians add that the patient has enjoyed tranquil sleep, is in good spirits and is resting quietly.

Altogether, this is considered a satisfactory report.

Wife Goes to Astapova.

Countess Sophia Tolstoy, after the first shock caused by her husband's sudden abandonment of his home and family, displayed astonishing energy and insisted upon being taken to the count. Accompanied by her sons and Count Vladimir Tcherkoff, who formerly was Tolstoy's representative in England, she proceeded to Astapova by special train.

The illness of the great author brought about the reconciliation between the countess and Tcherkoff, whose embittered feelings in recent months have caused Tolstoy much anguish. Count Tcherkoff was summoned by telegram to Yasnaya Polyana, where he joined the countess and her sons. Tolstoy himself in a letter had expressed a particular desire for Tcherkoff's presence.

The difference between the countess and Tcherkoff arose over Tolstoy's literary legacy. Tcherkoff had collected a large quantity of unpublished material, copies of "Hadji Murat," Tolstoy's latest work, and other stories, as well as various documents which he has forwarded for safe keeping to England. These he intended to offer for free publication in pursuance of the author's wishes. The countess Tolstoy, in behalf of the family, has been insisting that Tolstoy should procure a copyright for all his publications, the returns from which would serve to aid the very numerous family instead of filling the pockets of the publishers.

Three months ago, when the administrative order expelling Tcherkoff from Tula province was repealed, he visited Yasnaya Polyana, but left hurriedly, as the countess had peremptorily forbidden him access to the grounds. Tolstoy thereupon visited Tcherkoff on his estate, three miles away in Moscow province, in spite of the attempts of the countess to dissuade him.

TWO HUNTERS ARE KILLED**Six Others Seriously Injured on First
Day of Ohio Season.**

Cleveland, Nov. 16.—Two men were killed and six seriously injured as the result of the opening of the rabbit shooting season. One of the dead and five of the wounded were accidentally shot by comrades.

John Hoffman, twenty-one years old, Mansfield, O., died when the side of his head was blown off by Harry Bride, a companion. Homer Yankie, fifteen years old, Elmville, O., fell in crossing a fence and his gun exploded, mortally wounding him. Albert Becker of Canal Dover, who was accidentally shot by his brother Herbert, will probably die. Of the others, Joseph Bean of Delaware and Harry Walton of Wooster have lost a leg each, and John Fisher of Wooster is minus an eye.

First Car Thanksgiving Day.

Aberdeen, S. O., Nov. 16.—C. N. Herried, manager of the Aberdeen Street Railway company, announces that the street cars will start running probably on Thanksgiving day. The company's charter calls for the establishment of regular service by Dec. 10, but it will be able to anticipate that date by at least two weeks.

Indian Slayer Convicted.

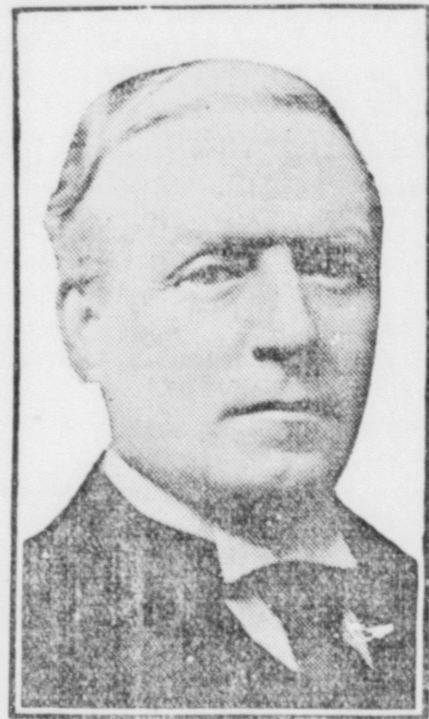

Aberdeen, S. D., Nov. 16.—A jury in the trial of Jacob Keeke, a Sisseton Indian, charged with the murder of George Kampeska, another Indian, returned a verdict finding Keeke guilty of manslaughter. Howard G. Fuller, attorney for Keeke, filed notice of appeal on the ground that the federal government has had no jurisdiction since the Sisseton reservation was opened to settlement.

Light Diet.

Dubbs—No animal can exist on nothing. Tubbs—Oh, yes! The moths eat holes.

PREMIER ASQUITH.

Delays Statement in
Deference to Balfour.

**PRACTICALLY A CERTAINTY****General Election to Be Held in Eng-
land Before Christmas.**

London, Nov. 16.—A general election before Christmas is a practical certainty, but the steps whereby this will be brought about are still unknown. The king is evidently taking an active part in the crisis, and his majesty's influence may have an important bearing on the situation.

It is understood the government will accede to Lord Lansdowne's demand to have the veto bill submitted to the house of lords, on condition that no tactics are employed to gain time.

The delay in Premier Asquith's official statement to parliament was made in deference to the convenience of Mr. Balfour, who has an engagement at Nottingham Thursday. An indication of the Unionist policy comes with the publication of the resolutions which Austen Chamberlain, after a conversation with Mr. Balfour and Lord Lansdowne, will submit to the Unionist conference at Glasgow Nov. 25.

These concede the possession of a peerage should no longer of itself give the right to sit in the house of lords, and welcome any reasonable proposals which will increase the efficiency of the house of lords by the addition of life peers or representatives elected for a term of years from those outside the peerage.

At the same time, the resolutions maintain that, when the two houses disagree on vital issues, it is the people alone who have the right to decide between them.

**TO PROTECT HER
SEX INDUSTRIALLY****Miss Younger Says Woman
Should Vote.**

St. Louis, Nov. 16.—"Woman should be able to vote, in order to protect her own sex industrially," declared Miss Maude Younger of San Francisco before the American Federation of Labor. The statement was greeted with enthusiasm by the delegates.

"Male wage earners have two methods of improving their conditions," said Miss Younger, "by unionizing and by the ballot. Women wage earners have but the one means—by forming unions. Women go out of the home and work because they have to, not because they want to. They should therefore be protected with every weapon, including the ballot. Women are hard to unionize, because all of them have their eyes on matrimony as an escape from toil."

Miss Younger is connected with the San Francisco wage earner's suffrage convention and is an author. Her address was one of the important features of the session, the other being the address of Governor Hadley, in which he said that one-third of the judges and one-half of the lawyers of the country were unnecessary.

The working committees of the convention were organized during the day and will now begin regular sessions. Twenty or more resolutions and reports were referred to them by President Gompers.

TO SUCCEED T. H. CARTER**Democrat Will Be Elected to Senate
From Montana.**

Helena, Mont., Nov. 16.—Thomas H. Carter, Republican, will be succeeded in the next federal senate by a Democrat, the official canvasses having resulted in a Democratic gain of two members, one each in the house and senate. Heretofore these had been claimed by the Republicans on unofficial returns.

The counting was completed in this, Silver Bow and Granite counties, with the net result indicated. The trouble at Butte was amicably settled, the sheriff serving in lieu of one of the commissioners who had gone to Chicago.

There are three candidates for the senate as Carter's successor, T. J. Walsh, a wealthy lawyer; W. G. Conrad, a millionaire banker and mining man of Helena, and supposedly W. A. Clark, the Butte mining magnate. The legislature now stands 52 Democrats and 50 Republicans. The only Republican hope now rests upon the Silver Bow contest.

**WILL FINISH IT
AHEAD OF TIME****CALIFORNIA****Far Ahead of Louisiana From a
Financial Standpoint.****COMPARISON OF TWO STATES**

Dank Statistics Show That the Pacific Coast Commonwealth Outclasses Her Southern Rival—Some Items That Ought to Tell Heavily as Arguments For the City of San Francisco.

"With no design to lay bare a rival's hard circumstances, but to ascertain definitely the relative and comparative ability of California and Louisiana, to finance and handle a world's fair, the California Exposition committee has been looking into the banking figures of the two states and two cities," says the San Francisco Call. "The showing is tremendously against Louisiana and New Orleans."

"Herewith are some items that ought to tell heavily as financial arguments for San Francisco. They are taken from the report of the national monetary commission and relate almost wholly to conditions on April 28, 1909. That they are exact and authentic there can be no question."

"The results of the comparison are striking. For example, with comparatively equal populations, California has four dollars of banking resources to Louisiana's one. The savings deposits of the states are 13 to 1 in California's favor, ranking California fourth in the Union in this respect and Louisiana twenty-fourth."

"San Francisco's 200,000 savings depositors have \$154,000,000 tucked away; New Orleans shows 55,000 such depositors with only \$17,000,000 laid up against that rainy day. San Francisco's savings banks paid their passbook holders in interest in the year covered by the report upward of \$5,000,000; New Orleans savings depositors in the same period were credited with a little more than a quarter of a million."

"According to the report of the comptroller of the currency, the national banks of San Francisco increased their total resources \$103,600,000 in the year 1909-1910; New Orleans national banks increased a little more than \$2,000,000."

"Below are the precise figures: Comparative Banking Statistics Relative to California and Louisiana."

California.	
Population June 1, 1909.....	1,732,000
Capital of all banks.....	\$99,967,809.22
Average per capita.....	\$57.72
Individual deposits.....	\$67,185,799.00
Average per capita.....	\$39.47
Total resources of.....	\$42,969,880.00
Average per capita.....	\$24.80
Total savings deposits.....	\$281,228,437.26
Number of savings depositors.....	525,488
Total depositors.....	\$890,149
Average amount of savings deposit.....	\$535.00
Amount paid savings depositors in interest 1908-9.....	\$122,906.79
Rank fourth among states of the Union in amount of savings deposits.	
Rank seventh among states in number of savings depositors.	

Louisiana.	
Population June 1, 1909.....	1,642,000
Capital of all banks.....	\$21,955,800.90
Average per capita.....	\$13.37
Individual deposits.....	\$9,504,530.00
Average per capita.....	\$5.12
Total resources of.....	\$158,642,502.30
Average per capita.....	\$96.61
Total savings deposits.....	\$21,356,283.90
Number of savings depositors.....	80,733
Total depositors.....	\$163,814
Average amount of savings deposit.....	\$264.00
Amount paid savings depositors in interest 1908-9.....	\$91,527.72
Rank twenty-fourth among states of the Union in amount of savings deposits.	
Rank twenty-seventh among states in number of savings depositors.	

San Francisco.	
Total savings deposits.....	\$152,792,186.05
Total individual deposits.....	\$43,927,437.47
Number of savings depositors.....	208,250
Total number of depositors.....	252,539
Average savings deposit.....	\$740.00
Amount paid savings depositors in interest.....	\$5,223,827.65
Increase in total resources of national banks 1909-10.....	\$103,620,828.96

New Orleans.	
Total savings deposits.....	\$16,856,782.49
Total individual deposits.....	\$2,979,977.18
Number of savings depositors.....	55,576
Total number of depositors.....	74,919
Average savings deposit.....	\$300.00
Amount paid savings depositors in interest.....	\$285,157.10
Increase in total resources of national banks 1909-10.....	\$2,370,228.71

Note.—The figures above given are taken from the report of the national monetary commission, and except as noted relate to April 28, 1909.

The last comparison is taken from the reports of the comptroller of the currency.

Two Boys Cremated.

Butte, Mont., Nov. 16.—Caleb Bates of Dayton, Wyo., just across the Montana line, locked his two sons, aged two and four, in the house to prevent their running away when he went to work and when he returned it was to find his home destroyed by fire, one boy burned to a crisp and the other so badly burned that he will die. The boys played with matches on a bed.

Politely Put.

"Jinks told Bangs he was a hardy struck by lightning."
"Where's the point?"
"It took quite a using up of gray matter for Bangs to discover that Jinks had called him a blasted liar."
—Baltimore American.

**Colonel Goethals Makes Pre-
diction as to Canal.****INSPECTS THE GATUN DAM**

President Taft Spends Several Hours in Looking It Over—Official Date of the Opening of the Big Ditch Remains Jan. 1, 1916—Report That Chief Executive's Visit Is Forerunner of Request for Another \$100,000,000 From Congress Unfounded.

Panama, Nov. 16.—The Panama canal will be completed Dec. 1, 1913. This information was given to President Taft while he was inspecting the famous Gatun dam, on which he spent several hours. The official date of the opening remains Jan. 1, 1916. Lieutenant Colonel Goethals desires one year in which to train the canal tenders and to get the machinery working smoothly. Ships meantime will be granted the privilege of the canal, but at their own risk of delay incident to inexperienced operation.

In addition it was announced by the colonel that the report that President Taft's visit was the forerunner of a request for another \$100,000,000 from congress was unfounded. The canal will be completed in 1913, he said, within the \$375,000,000 already authorized.

The president expressed amazement at the amount of work accomplished since his visit to the isthmus in February, 1909.

The president displayed a knowledge of the technical details of the canal that surprised the officials, his familiarity dating back to the time he was secretary of war, when he advocated a lock canal as against a sea level system. He was greatly surprised, however, at the immensity of the dam, some idea of which can be gained from the fact that the train was under way nearly three hours on the spur tracks overrunning the great fill. The president exclaimed:

"This is a mountain, not a dam."

Visit Dispel All Fears.

The visit of President Taft has utterly dispelled any fears gained from sensationalists respecting the stability of the dam base, which is a half mile wide and so gradually sloped that it could never be recognized as a dam.

Colonel Goethals explained to the president the informal opening of the canal in 1913 necessitated immediate action on the part of congress relative to toll rates, because eighteen months will be required by shipping interests to adjust their rates to the new routing.

The president expressed himself as delighted to find the efficiency of the canal workers increasing daily. The canal is beginning to take the form of a waterway, and this accelerates the interest of the employees, thus hastening completion. Colonel Goethals is not officially promising that the canal will be completed in 1913, lest contractors' delays and trouble with supplies may interfere.

The president briefly addressed the Americans engaged in the canal work at a reception given under the auspices of the Young Men's Christian association and the Red Cross. He will inspect Culebra cut, and will dine with President Arosemena, this being made the occasion of a state function. On the homeward trip the president will go ashore at the proposed naval base at Guantanamo for a few hours Saturday afternoon.

PEACE IN STRIKE REMOTE**Big Chicago Clothing Firms Refuse to
Recognize Union.**

Chicago, Nov. 16.—Hopes of peace in the garment workers' strike faded when most of the big firms emphatically refused to hear any proposition that in any way recognizes a union. The clothing manufacturers said they would not sign any contract that recognizes the principle of collective bargaining.

Commissionary stores, each with provisions for 300 families, will be opened in the localities where most of the strikers live. The goods will be sorted in parcels, each containing provisions to last an average family three days.

An effort is being made to have the American Federation of Labor, now in session at St. Louis, levy an assessment of 2 cents per capita on all affiliated unions. This would net the strikers about \$35,000.

Formation of New Elements.

Uranium appears to have a decadent life history, breaking down into other elements, of which radium is one, which in turn yield the emanation and other elements designated as radium A, B, etc. The theory has been propounded that uranium, thorium and radium are undergoing atomic disintegration, and the heat that radium evolves is the direct out-throw of explosions of the atomic structure. Elements of lower atomic weight thus result, and hence the appearance of helium. This would account for the presence of helium in the rocks and spring waters of the globe, where it has been accumulating for millions of years. — Dr. Charles Avery Doremus in Century.

WEDNESDAY, NOVEMBER 16, 1910

Two passenger and two freight trains are now in daily service on the Cuyuna division of the Soo line running into Aitkin.

Alex Nelson, the contractor of Perham who built the Ransford block in this city, was elected to the house from the Perham-Ottertail district on the county option ticket.

Pennington is the new county created at the recent election out of Red Lake county, with Thief River Falls as the county seat. The new county is named after the president of the Soo railroad.

A flowing well and an iron mine have both been discovered in the same hole by the village of Aitkin. If the Indian order remains as present this city will need a flowing well to quench the thirst that will exist in thirty days.

This ice will claim its victim along with the reckless deer hunter who mistakes his man for a jack rabbit or a red squirrel within the next few days. A certificate a good horse sense should be required with every hunter's license issued.

Have you noticed the drop in the cost of living since the recent republican victory in Minnesota? J. Ogden Armour credits the drop in food prices to the heavy yield of corn and other crops throughout the country, but of course that is absurd. At any rate they can't get the prices too low to suit the average citizen but the reduction should come gradually so as not to cause too much of a jar to the human system.

NORTH HAS WON FIGHT

Beidji Pioneer: "The overwhelming republican victory in Minnesota means honest reappointment for the state," declares W. R. Mackenzie of this city, secretary of the Northern Minnesota Development Association, who continues:

"The republican party is irrevocably pledged to reappointment and the election of all our friends in Northern Minnesota is an evidence of the fact that the representatives regardless of party lines in the northern counties are as a unit for our rights."

Mr. Mackenzie has received pledges from the legislators. The reappointment act will carry with it provisions for the election of new senators in all of the affected districts.

This means that it will throw nearly 30 senatorial election into the next campaign as county option will at that time be an issue and as there

will be a United States senator to elect, the reapportionment act stands out, with out doubt, as the most important measure facing the state legislature at its coming session.

Secretary Mackenzie, who was named one of the committee appointed by the Beidji meeting, last Friday, to draft a good roads bill, leaves tonight for St. Paul to confer with George W. Cooley, state road engineer. The road bill, one of the measures which has for its purpose the protection of the Minnesota forests, will be constructed along the lines of the judicial ditch law and will call for the supervision of the state highway commission in all construction work.

Frank Day, deposed leader of Minnesota democracy, doesn't agree with Secretary Mackenzie regarding reapportionment. In fact he says the cause of reapportionment is lost.

LOCAL NEWS NOTES

Andrew Carlson came from Hubert this noon.

Miss Esther Belmont is visiting in Sauk Center.

Mrs. Joe Smith came from Deerwood this noon.

A good programme in Finnish and English including the Finnish national dance will be rendered. This will be followed by a dance and refreshments will also be served.

John Schmolke, late democratic candidate for the legislature from this district, desire the Dispatch to say that he is thankful to all the people who voted for him, and adds: "I never expected that many votes in a county where I was not known well. I did not try to buy myself into office, thought I'd let the people vote for whom they thought it was right to vote for."

Modern plumbing and heating, water and sewer connections, at lowest prices. Get our estimates. D. M. Clark & Co. 11017

GOOD NEWS

Many Brainerd Readers Have Heard it and Profited Thereby

"Good news travels fast," and the thousands of bad back sufferers in Brainerd are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:

Edward Finnerty, 209 Main St., Brainerd, Minn., says: "I used Doan's Kidney Pills some years ago procuring my supply at a local drug store and I found them very effective. They relieved me of stiffness and soreness in my back that had prevented me from doing any kind of work and also strengthened my kidneys. My experience with Doan's Kidney Pills has shown me that they possess great curative powers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

AWAKE NIGHTS

Children were intended to sleep nights. When they are wakeful and fretful, it is time to worry. Kickapoo Worm Killer (the delicious candy tablets) is a great medicine for children. It cleans the system of poisonous substances which cause sleeplessness. It removes acids which impoverish the blood; it tones up all of the functions; it makes strong, healthy children.

Price, 25c.; sold by druggists everywhere.

MUSIC AND DRAMA

"My Cinderella Girl"

College life with all its refreshing humor, its pranks and frolics forms the foundation of William Norris' "My Cinderella Girl," which is to come on Tuesday, Nov. 22d. It is a play that abounds in ludicrous situations and keeps an audience convulsed and in an uproar from start to finish. There is not a quiet moment from the time the curtain goes up the first time, until it descends upon a baseball game at the close.

Students of all types, some serious, some funny and some very odd are seen in the piece, and they deliver witty lines with much glibness and with telling effect. The piece ran for 300 nights in Chicago where it kept capacity audiences convulsed with laughter. The farce is by Richard Walton Tully, who wrote "The Rose of the Rancho," for David Belasco, and in which play Frances Starr was starred. It is a play dealing with college life and more especially baseball. The hero is a young man who tries to keep the knowledge from his father that he is a baseball player. The stern father is strongly opposed to baseball, and the young man's endeavors to keep his father from knowing about his baseballitis affliction cause much laughter. There are two or three love stories in the piece, also, and they add interest and zest.

The song numbers, a dozen in all, are full of melody, and are bound to be popular. They are from the pen of William Frederick Peters, who composed the score for "The Mayor of Tokio." The chorus of prize beauties was selected and trained by Gus Sohke, one of the best known producers of musical numbers in the country today. The company presenting the piece are expert farceurs, well trained and their team-work is flawless. The scenic production is a costly and an elaborate one.

YOURSELF AGAIN

When you are wearied from overwork, feel listless and languid, not your old self, can't sleep or eat, as you should take Hollis's Pocky Mountain Tea. Makes you feel better than ever. Just try it tonight. Tablet form for busy people.

BREAKS COLD IN FEW HOURS

Proves Quinine is Never Effective in the Cure of a Severe Cold or the Grippe

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

It is a positive fact that a dose of Pape's Cold Compound, taken every two hours until three consecutive doses are taken, will end the grippe and break up the most severe cold, either in the head, chest, back, stomach, limbs or any part of the body.

It promptly relieves the most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Take this harmless Compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects, as a 25 cent package of Pape's Cold Compound, which any druggist in the world can supply.

Chicago

If you're hard to please — we will satisfy you

SOME months ago a tall man of prosperous appearance came into our store and said: "I want a new suit—I'm a hard man to fit—and I don't believe you can satisfy me."

But—he left our store smiling and happy—in the new suit he was in a hurry for.

The other day he came again—a thoroughly satisfied customer—and we had the pleasure of fitting him out—this man who had always patronized only the best of tailors—with two of our finest garments.

They were Kuppenheimer suits—made by

The House of Kuppenheimer

as was also the first one—and we now rest doubly sure in the surety that we have in this man a life-long customer.

If you have difficulty in getting the right fit, the right fabric, the right style and the right price—you owe it to yourself to at least find out what we can do for you.

And our present exceptional offerings are all reasons why you should find out to-day.

MAIL BOXES AT N. P. STATION

Commercial Club Held an Interesting Session Last Night—Matters of Interest Discussed

ELECTION OF EIGHT DIRECTORS

Committee Having Charge of Details Plan Some Interesting Features for Convention

The Commercial club met in regular session last night and discussed many subjects of interest and benefit to the city. After the routine business was transacted W. H. Gemmell, chairman of the public affairs committee, brought up the matter of endeavoring to have the department establish and maintain mail boxes at the Northern Pacific station in this city for the accommodation of the traveling public and also those of our citizens who now mail their letters after the close of business at the postoffice in the hotels. Mr. Gemmell stated that he had already taken the matter up with Postmaster Ingersoll, and that the latter gentleman in a communication had informed him that he in turn had written the proper authority at Washington urging the establishment of the service. If the postal authorities see fit to order the boxes erected one will be placed at either end of the station platform and will be labeled east or west mail as the case may be. The mail clerks on incoming trains will be instructed to collect from these boxes on the arrival of their trains both day and night, trains going west picking up the mail from the box at the west end of the platform, and those going east and south from the box at the east end. Mail placed in these boxes will be picked up by railway mail clerks only. This service is given in some cities, but only where it is made plain that it is absolutely necessary, and the chances of Brainerd securing it will depend largely on the view the department takes of the request, as it entails extra work on the part of the mail clerks in getting off and on their cars.

A communication from a Michigan college requesting information and asking if the city would offer any inducements for its location here was read. A motion carried to have the secretary communicate with the president of the institution inviting him to attend the December meeting of the Northern Minnesota Development association and look the field over for himself with the idea that his impression might be such that his institution of learning would be glad to locate in this city without a bonus.

The secretary announced that a new members, W. W. Wood, G. S. Swanson, E. C. Bane and Dr. Beise, had been elected to membership in the club at the last meeting of the board of directors.

The attention of the members was called to the fact that the election of eight members of the board of directors will occur the first Tuesday in December, the 6th, and that as a matter of fact it would be an important affair owing to the new conditions of the club. Nominations for directors may be made in writing when signed by three members and any number of candidates may be nominated by the same members. The secretary places these names on a bulletin board and on the day appointed a regular election takes

place. Three members will be present at the opening of the polls in the morning at 11 o'clock and two must be present at all times until the balloting is closed at 6:30 o'clock. Printed tickets will be provided containing the names of all the nominees for directors and the voters will place an X after eight of the names he desires to vote for and deposit it in the box. The judges will count the ballots and announce the result. The election will not be a meeting but will resemble an election day and members may come and go as they like. In order that there may be no mistake the names of the directors who hold over are E. R. Smith, W. H. Gemmell, G. W. Chadbourne, Carl Zapffe, F. H. Gruenhagen, Dr. Courtney, C. A. Albright and Dr. Hemstead. To be eligible to become a director a membership of six months is required.

The publicity committee announced that 5,000 pocket folders exploiting Brainerd and Crow Wing county would be ready for the December meeting. Carl Zapffe announced that matters in regard to details for the coming convention were progressing satisfactorily. Badges, both ribbon and button form had been ordered and it was the intention to endeavor to have every citizen who has the interests of the community at heart to become boosters during the two or three days the convention was here. A bureau of information will be established, arrangements for a smoker on the evening before the convention opens are being perfected, a large electrical sign to be erected across the street from the opera house has been arranged for, and everything seems to be moving harmoniously.

At the close of the meeting on motion of Mr. Gemmell the secretary was instructed to wire Secretary Mackenzie at Bemidji in order that it may be ascertained when he will come to Brainerd and meet with the committee, W. H. Gemmell, Carl Zapffe, Con O'Brien, R. R. Wise and S. F. Alderman.

COUNTY TAX SALE

County Auditor Smart Reports a Fair Sale of Lands With Cash Receipts of \$5,000

In speaking of the forfeited tax sale now being held at the auditor's office, County Auditor Smart says that all the country property he had on sale was eagerly bought up as well as a goodly number of Brainerd residence pieces of property, numbering about 150 descriptions. The total cash proceeds for Monday and Tuesday sales amounts to \$5,000.

F. D. McMillan, an attorney of Minneapolis, was the largest purchaser, buying in about \$1,000 worth of property. J. J. Fry, of Ortonville, mailed his bids which, in all cases, were raised by Mr. McMillan who was present in person at the sale. Only a few local purchasers were in evidence. The sale is open and continues the rest of the week.

BARGAINS

We are offering for a limited time three lots in Farrar and Forsythe Add., 50x140 feet at one half their value.

Two facing First Ave. in Block 20 and 28 at \$75.00 each, and one on Third Ave. at \$125.00.
13913 KEENE & McFADDEN.

THE INDIAN LID IN BRAINED

Some Saloonkeepers State They Have a Month's Supply of Liquor on Hand

BREWERY CEASES SHIPMENT

William Costello is Granted a License on Nov. 7th Just Before the Lid Took Effect

Inquiry among the saloonkeepers of Brainerd elicited the fact that all saloons are still open and running. The quality of the liquor appears unchanged and the size of the glasses of beer does not appear to have been reduced. The average amount of stock on hand seems to be from a month to six week's supply. One saloonkeeper stated he had six months' supply on hand, which appears to be a little over estimated.

The consensus of opinion among the two dozen or more dealers in liquor appears to be to sell until told or ordered to cease the sale of such goods. At the council session on Monday evening, November 7th, William Costello was granted a license to do business. He had a stock ordered and prepared to do business when the Indian order to cease importations went into effect. He has paid his license money and will continue to run as long as his slender stock lasts. Various saloon men have ordered and paid for supplies but cannot have them shipped out of the twin cities.

The Brainerd Brewery Co. recently completed an up to date bottling plant, an auxiliary to their brewery. The brewery is still running but shipments have ceased. It is presumed they can manufacture as long as their supply of stamps holds out.

So it seems that when the liquor on hand is used up and the Indian agents refuse to raise the embargo or tilt the lid the saloon business will cease because the supply has been shut off.

Ten cars of liquor have come down the Minnesota and International railway and are at present in the yards at Brainerd. These are car load shipments which were refused permission to unload and are on their way back to the consignors in the twin cities.

It is reported that liquor is being shipped as far north as Crow Wing on the Northern Pacific railway. This station is about eight miles south of Brainerd. There appears to be no embargo on the shipment of liquor to this small town.

The drug stores are also feeling the effects of the prohibitive order. H. P. Dunn & Co. and Johnson's pharmacy are both out of alcohol which is kept for medical purposes, and an order for more has been refused by the wholesale druggists in St. Paul.

IN MUNICIPAL COURT

Judge G. S. Swanson Dispenses Justice This Morning—Butcher Cases Continued

It was a busy day in municipal court this morning. Judge J. H. Warner was absent and Special Municipal Judge G. S. Swanson assumed his place on the bench. The case against Thomas Benda was brought by residents of his neighborhood who had been annoyed by his loud, unseemly talk, especially on the evening of November 7th. Several witnesses were examined and Benda gave his own testimony. Judge Swanson pronounced sentence and fined Benda \$15 and costs or 15 days in jail. Attorney Ryan said the prosecution preferred having him give a peace bond and so he was released and sentence stayed until tomorrow to give him time to furnish bondsmen. The prosecution believed that a peace bond would do more to stay his periodical outbreaks than a fine.

The case against the seven butchers of the city for not complying with the ordinance relative to securing licenses was continued to next Wednesday, November 23rd. Messrs. McGinn and Baker were present and the others had telephoned regarding the matter.

The case of Coleman vs. Dickerson, a civil action for money loaned, was on motion of the attorneys, W. H. Crowell for the plaintiff and M. E. Ryan for the defense, continued to be brought up on stipulation.

See the Eclipse Tonight

If the eastern sky is free from clouds, haze and smoke tonight from three hours after sunset the people of this vicinity will have an opportunity of observing a total eclipse of the moon in all its important phases, it being also visible, in some of its phases, generally in Africa, Europe, Central and Western Asia, North and South America and over the Atlantic ocean. This will be the last phenomenon of its kind visible here this year, or for some time to come, for, although two eclipses of the sun must occur each year and be visible at some places on the earth, none of any kind, solar or lunar, will be visible in either of the years 1911 or 1912, or the remainder of this year, so that all persons interested in such phenomena—and there are many—should take advantage of this opportunity, as the time of occurrence is very favorable for easy observation, being in the early hours of the evening.

WEBB HILL'S ACCIDENT

Prominent Nisswa Resident Meets With Serious Accident and Has Arm Nearly Severed

Webb Hill, one of the old time residents of Crow Wing county and who has operated a stopping place on Fishtrap lake during the past 30 years, met with an accident last Thursday which may lay him up all winter. Mr. Hill, in company with others, was operating a wood saw and they were cutting poles into stove wood at the home of the former. In some way one of the pieces of wood struck Mr. Hill and in attempting to dodge it he placed his arm between the guard and the frame of the saw. The left arm was cut and lacerated from the elbow to the wrist, the elbow joint being cut in two. Mr. Hill is just getting out of the hospital and is going to his home in Nisswa tomorrow. He hopes to have the use of his fingers but is somewhat fearful that the elbow joint may be permanently stiff.

TWELVE CARS OF BEER HELD UP

Train Load of Liquor Intended for Use at Bemidji Seized and Turned Back to Breweries

SQUAD OF GOVERNMENT AGENTS

Will Watch Proceedings With Full Authority to See That the Law is Not Violated

The Bemidji Pioneer says that the saloon keepers of that city are awakening to a realization of the full force of the government's latest order, twelve carloads of beer consigned to that city having been held on the track and forced to be returned by agents in this city.

The John Larson saloon, Third street and Minnesota avenue succeeded in getting a carload of beer stowed away in the cellar before agents of the Indian bureau knew what had happened. There was some doubt as to the right to order the beer removed and Agent N. A. telegraphed "Pussyfoot" W. E. Johnson for instructions. He received a prompt reply by wire ordering him to have the beer placed on the cars and shipped back to the brewery.

Agent Matulys discovered yesterday morning that a trainload of beer was ready to be unloaded here, the greater part of it being consigned to Bemidji breweries. The men to whom the beer was intended, contended that it had been ordered before the government's order forbidding shipment had gone into effect.

Agents Matulys and Way thought that made no difference and would not permit a keg of beer to be unloaded and in this action they now are backed up by W. E. Johnson, at the head of the Indian bureau. The twelve carloads of beer together with several barrels of whiskey and half a dozen casks of wine are on their way back home without any success in their intended thirst quenching expedition.

T. E. Brents arrived today to take charge of the Bemidji sub agency and he makes it plain that the holdup of trainload of liquor merely indicates the firm determination of the government to enforce the Indian treaty. It is at once apparent that the government means business and that the doom of not only every saloon in Bemidji but of every one in the Indian district is sealed and that legalized liquor traffic in the affected territory will be a thing of the past as soon as the present liquor supplies are exhausted.

Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

W. B. CORSETS

Are Grace Giving Beauty Builders

Every woman occupies a position somewhere between the imperfect and the ideal. Sometimes all one requires to give her an ideal figure, is a properly selected, perfect fitting corset.

It is marvelous what a difference this corset will make and how well worth while it is.

Every woman can find her prototype in a W. B. Corset. No matter what her lines, she can find in the W. B. Corset line the model which will make her figure ideal.

For slender figures and those of average proportions, we have a well graded series of W. B. Erect Form and Nuform models, which for variety and beauty can hardly be surpassed.

The more Junoesque types of feminine loveliness will find the W. B. Reduso Corset their greatest boon. For while the dignity that goes with added weight is admirable, it may be marred by imperfect proportions. And when a Reduso corset will produce perfection, why not employ it?

The bust, the hips, the abdomen, are all adjusted to more graceful proportions, and proper poise is easily attained by wearing the Reduso.

The fabrics, trimmings and bonings in all W. B. Corsets are of a standard to please the most fastidious.

W. B. Erect Form and Nuform models \$1.00 up.

W. B. Reduso models \$3.00 up.

"MICHAEL'S"

ELKS ARE PLANNING

A Gorgeous and Exciting Time at Their Thursday Night Session and Fawns are Warned

Brainerd lodge No. 615, B. P. O. E. will initiate a large number of fawns at the regular session on Thursday night, and an urgent appeal has been sent out to all the members to be present and lend their assistance to the candidates who will be in dire need of their help. Staples will be here in force and a general good time is expected. The circular says:

"Bro. Nolan will look after the floor work, and that insures every one (including the candidates) a good time.

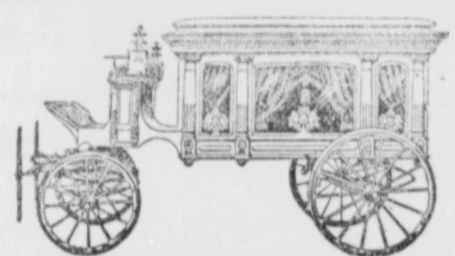

"Past Exalted Ruler Sanborn will have charge of the social session, and promises it will be a warm one. Stop your watches and depend upon the sun for the time. Come early and prepare to stay late.

"Bro. Fred Parker, with his efficient assistants, will aid Jim Smith in refreshing the inner man."

FOR SALE—One Hundred and Sixty pairs of roller skates and all the repairs and repair outfit at a snap for cash. Now is the time to start a rink in some of the new mining towns. No reasonable offer refused.

THE CAUSE OF COLDS.

Good Advice Regarding the Prevention of Coughs and Colds.

If people would only fortify and strengthen the system, the majority of cases of coughs, colds and pneumonia might be avoided. These troubles are frequently due to weakness, which produces a catarrhal condition of the mucous membrane, which is an internal skin of the body. When this skin is weakened it becomes easily infected with germs which cause many of the diseases to which flesh is heir. Healthy mucous membranes are essential safeguards of the body's general health.

We have a remedy which we honestly believe to be unsurpassed in excellence for the prevention of coughs, colds and all catarrhal conditions. It is the prescription of a famous physician, who has an enviable reputation of thirty years of cures gained through the use of this formula. We promise to make no charge for the medicine should it fail to do as we claim. We urge everybody who has need of such a medicine to try Rexall Muc-Tone.

It stands to reason that we could not afford to make such statements and give our own personal guarantee to this remedy if we were not prepared to prove the reasonableness of our claim in every particular, and we see no reason why any one should hesitate to accept our offer and try it. We have two sizes of Rexall Muc-Tone, prices 50 cents and \$1.00. Some times a 50-cent bottle is sufficient to give marked relief. As a general thing the most chronic case is relieved with an average of three large bottles. You can obtain Rexall Remedies only at our store—The Rexall Store.

TAFT THOUGHT WAS THIRTY-TWO

His Views on the Boss System in Politics In 1889.

spenetic ebullition of a prejudiced and unreliable witness, and he continued to retain the good opinion of the public.

Pooh Bah Begins Work.

Well, as I was saying, Pooh Bah, for so we may call him, presented himself to Hoyt and in rather a surly manner introduced the subject of the intended purchase. He said he supposed that Hoyt thought he was slow about reporting and perhaps he was, but as he was not paid for doing this work he did not know why he should be in a hurry. He had plenty of private matters which took his time.

Besides, he thought that the amount fixed by Hoyt was a very handsome price and more than the lot was worth. After a few more remarks about the heavy burden of public work which he was doing for which he was getting no pay, to which Hoyt made no reply, Pooh Bah withdrew, and Hoyt saw him no more. A day or two after that, just as Hoyt was leaving his store for the railway depot to go home, he received a telephone message from a doctor with whom he was on friendly terms asking him to come down to a quiet sample room for a talk.

Hoyt is not a drinker, but a quiet nip with a friend behind colored glass doors and in front of a magnificent mirror with a polished resting place for your elbows when there is no one to see or hear except an immaculately clean, white aproned, imperturbable and gentlemanly barkeeper has its attractions for him, and he went. This physician is himself not a tyro in politics. Indeed, he bears the name of Tornado, as illustrative of his tremendous popularity, and in certain circles his reputation may be said, like Puck, to have griddled the globe.

In recommending him to the president's consideration his letters would all of them refer to his high reputation in the community. Tornado explained to Hoyt that a friend had asked to be introduced to him; that on inquiry as to what the purpose was the friend had said that Hoyt wished to have a public committee report favorably the sale of his lot, and the friend thought that he could assist Hoyt and secure the report for the small sum of \$250. Tornado said that he declined to bring about the introduction for such purpose until he had seen Hoyt. Hoyt said that he was not in that kind of business and man-

Royal BAKING POWDER

Crullers, All Cakes, Biscuits, Hot Breads
More Tasty, Economical, Absolutely Healthful

ted surprise that Tornado should think he was. The only difference between him and the board was \$500, and he did not feel highly complimented that Tornado should deem him likely to barter his standing as an honest citizen for the paltry sum of \$250, even if he thought that every man had his price.

Bribe Is Offered.

"Why," said Tornado, "you need not lose any standing. You need not see my friend. I'll be the middleman myself and handle the money." The friend, whose interest in Hoyt's success was so surprising at first and so easily explained now, was also a prominent citizen of high standing in the politico-business circles—i. e., he was a gilt edged business man among the politicians.

Hoyt refused Tornado's kind offices, and, much disgusted, went to his store to think it over. He concluded that as he wanted the money for his land he would simply accept the first offer of the board and give up \$500 of his price. He so wrote to the board, and the offer was accepted without again securing Pooh Bah's valuable services as a negotiator. Now, the evidence as to Pooh Bah's honest intentions or otherwise in the negotiation

is not of such a character as to be admissible in court. Much of it would certainly be refused on the ground of res inter alios acta, but the coincidences are such as would cause reflection in the case of any one who had not Pooh Bah's high reputation.

As for Tornado, he committed no overt act except that of solicitation, and perhaps if he were an attorney he might call what he did only professional services for Hoyt. As to the friend of Tornado, perhaps he was only like Mrs. Gamp's Mrs. Harris, although the coincidence of Tornado and Pooh Bah's having such a common friend in the flesh might have an undue weight against this common friend with persons not acquainted with the heaven made rules of evidence as administered in courts of blind justice.

Hoyt and I were considerably shaken up by this experience of his, and we for a day or two became pessimistic enough to get a seat in that street car said to contain all the mugwumps in Ohio. But we recovered in a short time, coming to the comforting conclusion that probably there might be startling revelations concerning men of high standing in any profession of business and that one instance or a dozen would not lead us to wholesale generalizations or condemnations.

GENERAL OUTFITTERS, UNDERTAKERS and EMBALMERS, PLUMBERS and STEAM FITTERS

The Famous Rayo

Does Not Strain the Eyes

Don't use a small, concentrated light over one shoulder. It puts an unequal strain on your eyes. Use a diffused, soft, mellow light that cannot flicker, that equalizes the work of the eyes, such as the Rayo Lamp gives, and avoid eye strain.

The Rayo is designed to give the best light, and it does.

It has a strong, durable shade-holder that is held firm and true. A new burner gives added strength. Made of solid brass and finished in nickel. Easy to keep polished. The Rayo is low priced, but no other lamp gives a better light at any price.

Once a Rayo User, Always One.
